

eye-share **Advisory**

We offer increased value by helping your company to harvest the full potential of eye-share

To use eye-share for handling incoming invoices and other document types is an investment that offer great opportunities - but also some challenges. Corporate changes may take time to be accepted by everyone, and it will often require some work to get the effect we want from new implementations.

Normally we experience that it is relatively easy to notice the first effect when implementing eye-share. The scanning of documents, everything becomes electronic, the workflow is automated and the approval of invoices is faster than before.

Better control, easier accessibility and faster approval is often the immediate effect.

In Eye-share we are not satisfied with this. We want to contribute to an increased effect that often happens after this initial phase – and help guide your company in phase two. When the organization has become accustomed to the new tools, know the basics and have taken care of the first initial challenges. Many companies are happy to stops here – but it is at this stage we want to streamline the processes further and ensure that users learn how to work most efficiently and use the system to its fullest.

Eye-share's Advisers helps your company to harvest the full potential of eye-share in a safe and secure manner. For a business to succeed in its area it requires an continuous and harmonious interaction between people, organization and technology. Different companies experiences different challenges, and Eye-share have extensive experience in identifying and solving these challenges together with our clients. The eye-share solution should support your business needs and help to develop these further.

Eye-share's Advisory department offers a one day workshop with the client to reach phase two. We will walk through the system's setup today and reveal efficiency opportunities related to use and technical setup.

OUR CONTRIBUTION WILL BE:

- Problem understanding and solution orientation based on experience from a number of similar implementations
- Thoroughness and professional expertise
- Commitment and curiosity for your business
- We work together with the client for the best solution

WE OFFER:

- A one day workshop with the client
- A written report with areas for improvement and suggestions for solutions
- Review of the report with the customer
- Fixed Cost: 2.500USD + travel expenses
